# Spring Graduation

*Class of*  
**2021**

## Staff & Faculty

Your experience at triOS College has prepared you well for this moment. Your instructors have helped you learn and solve problems using innovation and creativity. You have grown, personally and intellectually, and developed the skills to help you succeed, no matter what path you choose to pursue.

The entire staff and faculty have been inspired by the resilience, determination and compassion shown by our 2021 graduates. We recognize the strength of character that is yours and know you will succeed in a future filled with all the dreams and desires closest to your heart. For years to come this special edition Graduation Celebration program will serve as a reminder that in the face of adversity, the Class of 2021 demonstrated courage and determination.

While looking ahead, remember that you are and will always be part of the triOS family. Congratulations on your achievements! We can't wait to see where the future takes you.

triOS College Staff & Faculty

## Campus Director Team

Anne Zakoor, Windsor

Heather Morton, Director of Human Resources

Ramona Porter, Acting Human Resources Manager

Massimo Noce, Director of Marketing

Jason Toms, Director of Facilities, Information Systems, and Technology

Curt Moeller, Regional Director of Admissions

Stephanie McCrae, Regional Director of Operations

Simone Maillet, Regional Director of Operations

Tracey Muir, Regional Director of Career Services

## Valedictorian Address

### Felecity Slikboer, Medical Office Assistant (+Internship), Windsor

We made it through the most unpredictable year to date and grew immensely. The changes that took place, created a new path for student life. For many, this path meant balancing school, work, and family in an unfamiliar way. Challenges had to be faced head on and in some cases, alone. As we look back on our time as students, know that in both mind and spirit, we pushed the boundaries of our future. Excellence does not come accidentally; it comes to those who work hard and persevere through the toughest of times. From a fellow classmate, student and now alumni; be proud of how you have handled this

experience. The silent battles you fought, the moments you had to humble yourself, wipe your own tears and pat yourself on the back. Celebrate the strength you found and gained because your success is honorable. I am absolutely elated to represent the ever-strong graduating class of 2021!

### Martha Ruiz de Rojas, Medical Office Assistant (+Internship), London

It is a great honor for me to be representing the extraordinary and united group of students who make up the spring 2021 graduating class from triOS. This was the year the world stopped. Homes became the center of refuge for families. In this time, there was also the tremendous change of classrooms. The blackboard, the physical instructor, the school desk lost importance in education at all levels. This meant that we used the house, the kitchen, or other rooms to prepare ourselves for this new normality. For some students the new technology was easy, for other people, like myself, technology made education

come with greater barriers and challenges. Didactic learning was replaced with Microsoft Teams. Physical interactions with our instructors and classmates were changed to visual and audio only. We learned together and helped each other to make the classes more enjoyable and understandable. I believe that unity is strength. As Kamala Harris says "In unity there is strength and in diversity there is power". With this expression I would like to thank the administrative and instructional team of triOS College who, like us students, were living this reality. The Covid-19 was an unexpected world event that has made humanity change their ways of living. I feel united and I respect each of you. Graduates, go forth and persevere with your new knowledge, be your unique self and put your mark on the world.

# Valedictorian Address

## Mayongbe Kromah, Community Services Worker (+Internship), Kitchener

*I remember being in the refugee camp in Guinea, having big dreams, but little opportunity to accomplish them. My single mother and grandma suffered to make ends meet, while me and my siblings ate from dumpsters and walked barefoot to school. I worried we'd never get out of that place, but we survived, and in our sponsor's eyes, we are warriors. When we came to Canada, I was so excited to be able to chase the "Canadian Dream". Unfortunately, my family and I were faced with many obstacles, and I felt so alone. When a friend told me about*

*the CSW Program at triOS, I was scared to enroll. Once I started, though, I realized how different triOS is from other schools. The instructors and staff help to bring your dream to life, and truly care about their students. Remember that just because you've failed, it doesn't mean you're a failure. Work hard for your goals in silence and let success be your noise. Life is beautiful if you let the right people show you the true meaning of it. Today, I'm very successful in my field, and it's thanks to the faculty at triOS for not giving up on me!*

## Michael Morrison, Network Administrator, Hamilton

*My fellow graduates, today is a day to be thankful and inspired. First, we have much to be thankful for. Here at triOS College, we have received a great education thanks to our fine administration and instructors. Ashok Chauhn, "I hope you are adequate today sir" I am especially grateful to you for your patience, and kindness. You are truly one of a kind, and have made a great difference in numerous students lives.*

*I am sure that many of you were expecting 2020 to present us with countless memorable experiences, and it has, just not in the way we expected. However, we have persevered through*

*this pandemic to be the first graduating class to never physically stepped foot on campus, some of us anyway! We did it! Fellow graduates, I want you to know what a great gift it is to be as prepared as we are, because not all schools offer such an advantage. Here we have had a high degree of academic excellence and whether you intend to continue your education or not, you will benefit from what you learned here. We all deserve to celebrate and be proud of ourselves. Even though we won't have a traditional graduation ceremony due to the circumstances that we face today, we are now more equipped with the skills needed to move forward and take on whatever challenges come next in our lives.*

# Valedictorian Address

## Muktika Tyagi, Supply Chain & Logistics (+Internship), Mississauga

*I would like to thank our Campus Director, all my Instructors, my Employment Consultant and every graduate over the course of this journey. Through the late-night team works over last-minute assignments to the attendance or simply every Friday exams, thank you. The endless support and patience shaped each of us into the professionals we are today and the impacts you had on our lives will never be forgotten. Speaking of never being forgotten, I'd like to look back at this year, our year, and oh what a year it was! I am thinking of the legacy we are leaving behind. Essentially, we are legends; the class that graduated*

*over Microsoft Teams and Brightspace. It is undeniably true that we missed many occasions that would have been amazing memories; nonetheless, I find myself lucky to be able to achieve something in the year which was not so easy, quite sad, as crazy as that sounds. To me, all of this means that I enjoyed my time, had a great one-year experience and moreover learned a lot at triOS College more than I ever could have imagined. I believe we are leaving triOS and running toward our future as individuals, each one built up by memories and the impacts we had on one another, maybe running in opposing directions, but never truly leaving anyone behind. We graduate as a class, united as one. Congratulations class of 2021! We made it and good luck to each and every one of you in whatever you do!*

## Robert Newell, Police Foundations, Brampton

*On behalf of the graduating class of 2021, I would like to thank all the people that made triOS College able to function thru these difficult times. A special thanks to those in the tekSERVICES department for how they worked extremely hard to keep us all online, the faculty who laboured hard to have the impossible turn into the possible. To the support staff who work tirelessly coordinated our events that helped keep us structured and most importantly a special thanks to our families who helped us through these difficult times never before seen by a lot of us. I've watched students who didn't know each other band*

*together to make everyone feel welcome and accepted. We took care of each other and it didn't matter if we were in different regions, area codes, or just down the street. This above all made me feel like hope was never far away. Take what you've learned to help your communities, your families, and friends. Go forward and make the difference that so many of you have chosen to do. Never stop believing in your abilities and always hold your head up high, you've made it through – that in itself, is a distinction of character.*

# Valedictorian Address

## Rana Aboul Hosn, Police Foundations, Toronto

As I congratulate everyone for their success, my heart is filled with honor, humbleness and gratitude for being acknowledged as the Valedictorian for our Virtual Graduation ceremony. I lived for the first 39 years of my life in a so-called normal life, in a happy family with loving parents and pursuing my job in design management with dedication, enthusiasm, and passion. But then, life changed everything I worked for and I had to immigrate to a new country to build a new life. One can choose to see it as a set-back, but deep down I believed in what Joshua J. Marine said, "Challenges are what make life interesting, and overcoming

them is what makes life meaningful." This graduation is the first steppingstone to enter a new world. It is a new beginning for us all. As Zøe Haslie said "The future lies ahead, calling us up, offering us a new chance to make a new choice every day, offering us the chance to go another way, to start over. The possibilities are countless. All you have to do is just dare to take them." Cheers to a new beginning!

## Melisa Khovita Mahadeo, Business Administration (Human Resources & Marketing Specialist), Scarborough

Firstly, I would like to congratulate each and everyone of you. This past year has been challenging for many of us due to the pandemic. Not only we, the students had to adapt, but the instructors, and staff did as well. For some, it was hard enough returning to school after many years, balancing your personal life, and work life, but to learn online was another challenge. Even though, there were obstacles in your way, and there were times you wanted to give up; you did not. You persevered and this very moment proves that. When you step into the

workforce, it is important not to limit yourself. You can accomplish whatever you set your mind to. If you make a mistake, then get back up and try again. There is no such thing as failure, only giving up. Often on graduation day we look outside for heroes, but I see them right here among us. When you leave here today, celebrate what you have accomplished but look forward towards what the future has in store for you. I genuinely believe you all will accomplish great things and I wish you all the best on your journey.
