

# Information Technology Administrator (Cloud)

The Information Technology Professional diploma program at triOS is 62 weeks. It includes a 12-week internship.

In this program students will use a wide range of technologies to configure, automate, and manage servers within a cloud environment. Students will gain comprehensive training in the major areas of technology administration. This program at triOS uses a real-world, hands-on, and project-based approach that allows students to build the practical skills they need to be successful in the IT industry.

The courses within the program relate to 10 industry certification examinations. Students are provided with 6 certification exam vouchers to write the certifications they wish to pursue.

## Program Benefits
